Subject: TCE RD and CCD responses in RtC
Attachments: Summary of Public and SACC Comments_TCE_Sep-2020-CCD responses 10.29.20.docx; TCE Risk Evaluation_final_IAIA review_9-29-20-CLEAN_CCD_10.29.20.docx; OGC and IAIA Comments_Risk Evaluation for Trichloroethylene (TCE) 10-29-20_CCD-ngk-km jw.docx

Joel-

Thanks for the quick review of TCE!

Attached are the CCD responses/ revisions of RAD responses in the RtC (thanks to Tyler for helping transfer!) Yesterday I also transferred over the ES and RD, yellow highlighted the major revisions since that is what RAD is doing. I tried to copy over OGC comments but wasn't working all the time, so I added comment bubbles to show how I addressed their comments. I also did a spell check on the RAD clean version.

I sent our responses to the verbal comment action items to Shannon, and I transferred the responses to IAIA commenters (OAR, OLEM, OW and ORD) pertaining to the RD into RAD's summary of progress document.

I shared with Amy and Eileen so they can update the annotated version and NMP.

Subject: RE: Addressing comments on TCE

Hi Katie,

Nice work. I'm done with the RE and RtC. My comments are marked with %%. I looked at everything, so even if it doesn't have a comment from me, I'm good with the response/approach.

I saved to SharePoint, but in case there are issues, attached are both documents. We shall see if 1 or 2 people might be able to help you in the morning with the clean-up and transfer.

Thanks, Joel

Excellent, yes I hope that's the last glitch!! Re-sharing the SP links for Joel – seem to be working well for me this morning, fingers crossed.

Hi Katie –

I looked through the RTC and added comments in response to your \$\$\$\$. Overall they looked good!

I was able to access the sharepoint version of the ES and RD. Your follow-up edits look good. Thanks for modifying the ONU language (and removing the 'considerations' edit).

The word version attachment of the ES and RD was blank! Hopefully that is the tail end of the glitches.

Thanks for the detailed schedule!

Joel -

1) Please review the attached copy of the TCE (ES and RD)

- This SP version might work! [OGC and IAIA Comments Risk Evaluation for Trichloroethylene \(TCE\) 10-26-20 CCD-ngk-km.docx](#)
- OGC comments addressed
- !!! flags for IAIA comment suggestions and my draft replies
- Overview of non-cancer section might still need work
- The TCE WG meeting is Wednesday 9AM if I need to raise anything, and RAD aims to do the first pass back Thursday 10/28.

2) Please review the \$\$\$ flags in the CCD version of TCE Rtc (also attached) where RAD has flagged "CCD" in their document - I have revised their drafted responses.

Thanks you so much Ana and Niva for putting up with my technical difficulties.. they are slowly going away.

Hi all,

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Katie also sent the distribution in commerce language, seems that she just got feedback from Cindy, so hopefully that will take care of OGC comments.

The attachments include the additional paragraphs drafted to address the IA comments and a copy of the RE with all my changes in track changes. I started marking them with *** but I gave up with all the problems with the files. I looked at all the edits, even without markings.

Subject: Addressing comments on TCE

Niva –

Word has been frustrating for both Ana and I today so here is my TCE update, also see how the OGC action items have been addressed in the document attached! Ana may be able to send you an offline version of the RD she commented on – my word is too unstable to send such a large document, sorry 😞 I hope your computer is doing better today!!

RAD is drafting responses to IAIA commenters in [TCE Summary of Progress document Sep 2020 IAIA review.docx](#)

- Comments on RD from ORD, OLEM that I need to review
- See RAD's draft response to OW pertaining to RD Response looks good to me.
